

Peace of Mind

For over 30 years, Rug Doctor® NZ has led the way in design with the most compact, convenient, hot water extraction carpet cleaning machines available today.

All our Rug Doctor® carpet cleaning machines have the same professional cleaning power and method. The uniquely designed vibrating brush action agitates the dirt, reducing its hold on carpet fibres, while the units powerful vacuum extracts the dirt away.

Whatever your cleaning requirements, whether it be for your business, school, rest home, motel or home, we have the machine for you. Call us today and ask about our blue Mighty Pro® and Wide Track® machines for lease or purchase.

Convenient

Spot or whole – floor clean when it is convenient for you. No need to wait for a costly service company or strangers to come to your premises.

Cleans at the touch of a button and as simple as vacuuming.

So Easy to Use

Tough proven commercial design and professional engineering gives you up to twice the pump and vacuum power of other carpet cleaning machines.

Professional Results

Affordable

Rug Doctor® is value for money and built to last. You can buy, lease or hire it.

Healthier Environment

Your carpets are harmed mostly by what you can't see. The deep down grit wears away and cuts at carpet fibres as they are walked on, or where kids frequently play. High-traffic areas will matt over time due to fibre abrasion, and fibre loss.

Regular Cleaning Means a Healthy Carpet and Happy Clients

Cleaning your carpet regularly not only maximizes the life of your carpet, but improves air quality around it. Carpet serves as a magnet for pollutants, contaminants, bacteria and odours, not to mention nasties such as fleas, cockroach eggs and dust mites – a major cause of asthma in children.

To remove these you need to clean carpets deep down with hot water extraction. It's easy with Rug Doctor® – with the power of the vibrating brush to go deep so you can clean like a pro.

Carpet bug, magnified

So Versatile

The versatility of the Rug Doctor® combined with the Upholstery Tool means that it's simply perfect for hotels, rest homes, rental properties, fitness centres, schools, theatres, vehicles and of course home.

Testimonials

Jackie

Christchurch Top 10
Holiday Park

"We would like to thank you for the fantastic service you have offered us from our first enquiry, our machine demonstration to your advice and friendly service."

All of this is backed up by a high quality product which our staff are raving about. Our commercial size Rug Doctor® makes a quality job and finish to our carpets. We have already recommended Rug Doctor® to others in our industry and would not hesitate before we purchased again."

"I have cleaned literally thousands of office chairs and couches using my trusty Rug Doctor® Machine, purchased in 1997, and still going strong. Whenever a job requires the services of a second machine I always hire a Rug Doctor Mighty Pro® from a supermarket as they are also reliable and inexpensive."

Peter Cogswell

Managing Director, Darlington
Chair Services, Wellington

"Having our own Rug Doctor® machine has saved us thousands of dollars in cleaning and maintenance of our carpets and furniture. It's so convenient and easy to use and our staff love to use it. As a business we would not operate without one."

Brendan Mark

Manager, Anchor Lodge Resort,
Coromandel

Beverley

Beechwood Home and Hospital,
Aria Gardens

"What a wonderful machine we have found the Rug Doctor® to be. We use it throughout the facility and our carpets and upholstery always come up wonderfully."

The Upholstery Tool

Rug Doctor® cleans upholstery too! It has a specially designed hand tool which is excellent for cleaning:

- Chairs and couches
- Mattresses
- Stairs
- Badly stained areas on carpet

It's also great for cleaning small hard to reach spaces such as:

- Carpet and upholstery in cars, caravans, boats, buses, planes and theatres
- Under immovable furniture
- Around carpeted fixtures in bathrooms etc

The Upholstery/Hand Tool simply connects to the rear of the machine. Many people have discovered that buying this tool with all the extra benefits is a must.

Size: 5 Lt

Price: \$44.50

Please note: all prices exclude GST and are subject to change

Stain Removal Guide

The Rug Doctor Mighty Pro[®] and Wide Track[®] Machines give you the result of a professional carpet cleaner with a one pass cleaning system. However, when carpet or upholstery is stained, we recommend treatment to the stain before cleaning. Refer to Cleaning Tips page.

For best results always have pre-treatment products such as Spot and Stain Remover at the ready. For stubborn stains use the Upholstery Tool with quick back and forward cleaning action movements while holding the tool firmly down onto the surface area, spraying and extracting solution at the same time. Extract excess moisture from the surface being cleaned by not engaging the tool solution lever. This will avoid overwetting and assist drying.

Type of Stain	Treatment	Special Instructions
Blood • Butter/Margarine • Chocolate • Cough Syrup • Crayon • Dirt/Mud/Clay/Grass • Faeces (Non Urine) • Food • Grease • Gravy • Ice Cream • Ink • Jelly/Jam • Lipstick • Makeup • Milk • Motor Grease/Oil • Salad Dressing • Shoe Polish • Tobacco • Tomato Sauce • Toothpaste • Vegetable Oil	Spot Remover	Refer to Cleaning Tips page.
Candle Wax	Spot Remover	Scrape off as much wax as possible with a spatula or spoon. If wax is deeply embedded, cover with a white cloth and apply iron on low setting to cloth. Wax will transfer to cloth. Any remaining residue can be removed using Spot Remover.
Paint (Water Based)	Spot Remover	Old or dried spots may need to soak for an hour or two.
Coffee • Fruit Juice • Tea • Wine	Stain Remover	Refer to Cleaning Tips page.
Urine	Stain Remover	Act quickly! Urine is highly acidic and will bleach some carpets. Bleaching cannot be corrected with stain removing products.
Perspiration • Vornit	Stain or Odour Remover	Use Odour Remover to eliminate smell by adding with cleaning solution to machine.
Mustard	Spot Remover and White Vinegar	A near permanent stain. Use Spot Remover followed by vinegar. Yellow dye stains from mustard may not be removable depending on your carpet or fabric type.
Mildew	Odour Remover	Odour Remover destroys the mildew source. After treatment blot well and keep area dry. A follow-up cleaning should eliminate the stain.

Cleaning Tips

Regular cleaning helps extend the life of your carpet and assists with a cleaner and healthier environment. Follow these general tips to make the cleaning process a little easier.

Do not rub carpet surface

as this will spread stain and distort the carpet.

When cleaning liquid spills

gently blot thoroughly with clean, white paper towels.

Do not press hard allow liquid to absorb into the paper towels.

For solids, scoop up with spoon working from outside of spill toward centre.

Always blot or clean towards the centre

so as not to spread stain.

Use cleaning products according to each labels instructions.

Always test an inconspicuous area of carpet or upholstery for colour fastness before cleaning.
